	Hand circumference (cm)	12.5	15	17.5	20	22.5	25
Hand length (cm)	15	16	17	18	19	20	21

All clothing is made to a consistent sizing policy using British Standard measures. The fit of individual garments is then altered to suit the end use, i.e. Elite products are cut close to the body but are not restrictive whereas popular core lines are more generous. This table gives the approximate body measurements that correspond to product sizes.
